

# INTERVENTIONAL PAIN MANAGEMENT

UT Physicians offers comprehensive treatments for patients who are experiencing chronic pain. Our goal is to help you improve your overall quality of life by utilizing minimally invasive treatments and the latest advancements in medicine to diagnose and treat painful conditions.

We work closely with our patients to explore traditional and alternative solutions, ranging from epidural and steroid injections to nerve blocks and radiofrequency ablation. Learn how we can help by scheduling a visit with a pain management specialist today.

**For appointments, call (713) 486-6325.**

**Visit us if you are experiencing pain in your lower back, neck, or from other pain syndromes. Our treatments include:**

- Vertebral augmentation
- Spinal cord stimulation trials and implants
- Epidural steroid injections
- Facet joint and medial branch blocks
- Sacroiliac joint injections
- Radiofrequency ablation
- Diagnostic sympathetic and neurolytic blocks
