UTHEALTH'S UPGRADE
TRAINING ROLL-OUT
STRATEGY

Audience Poll

- ▶ How frequently do you participate in Epic quarterly upgrades?
 - ◆ Every quarter as Epic recommends
 - ◆ Every 6 months
 - ◆ Once a year
 - ◆ We don't have time for upgrades!
 - ◆ Would love to do Upgrades but have limited resources.

UTHEALTH UPGRADE TIMELINE

What is an upgrade? Search

upgrade

/ˈɛp,grād,ˌɛpˈgrād/

verb

Taking the good, the bad, the ugly and converting to a new version.

Pulse Checks

Pulse Check

"It was just me and the Instructor felt like a date lol"

"The level of engagement and great examples and workflow."

"Recordings to go over again!"

"Games were fun! Instructor is hilarious"

Upgrade Go Live

Super User program to support areas.

Provide At-The-Elbow go-live support.

Epic Resources Page.

Track issues and workarounds.

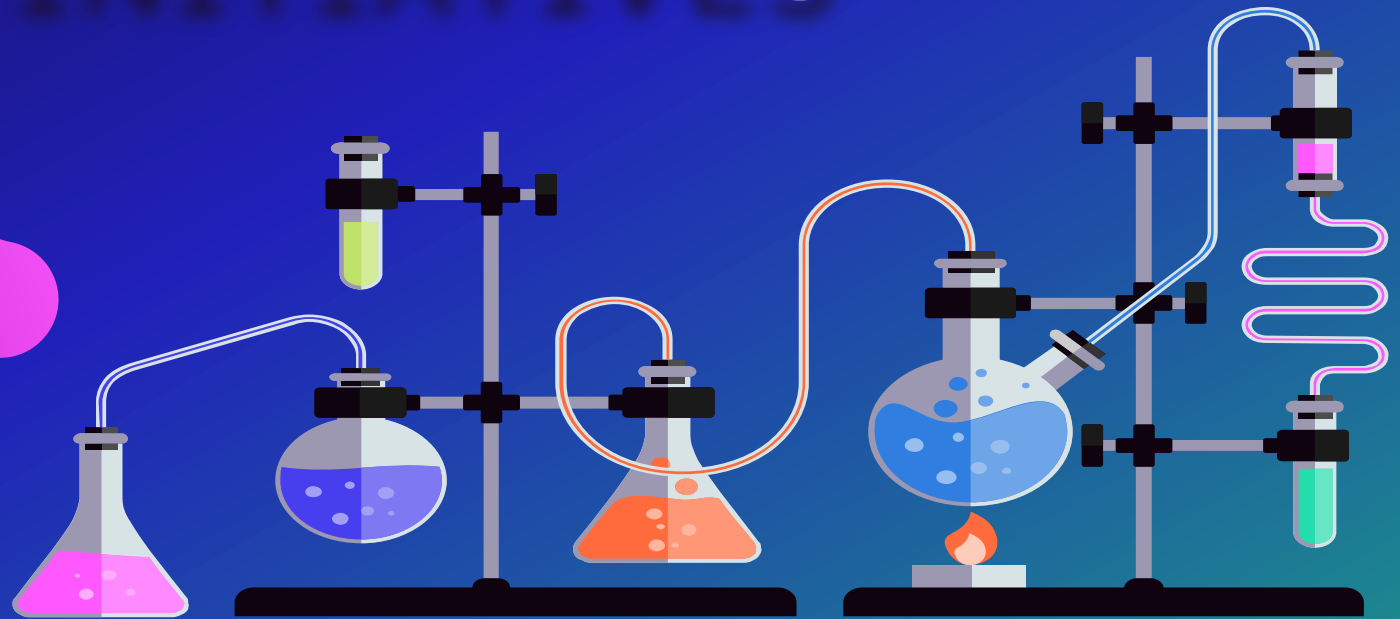

Troubleshoot and report issues with designed support structure.

Communicate changes that affect a specific workflow.

POST TRAINING INITIATIVES

Anything is possible when you
have the right people to
support you.

MISTY COPELAND

Post Go Live Initiatives

- The final piece of the puzzle is ensuring the Post Go Live support system is developed and ready to deploy.

The secret of getting ahead is
getting started.

MARK TWAIN

Support Structure

GO LIVE SUPPORT

- Bridge Live Support
- At the Elbow Support

RESOURCES

- Recordings for our sessions
- Learning Home Dashboard
- Lunch & learns, Thrive sessions

HOW TO'S

- Facilitator's Guide
- Issues & Workarounds
- Newsletter & Updates

Go Live Support

Bridge Live Support

- ❖ Live virtual support via Teams and Chat to handle issues that may occur on site.

At the Elbow Support

- ❖ In person support to provide assistance with issues that arise. Providing support for front desk and clinical staff.

GO LIVE SUPPORT

Resources

Recorded Sessions

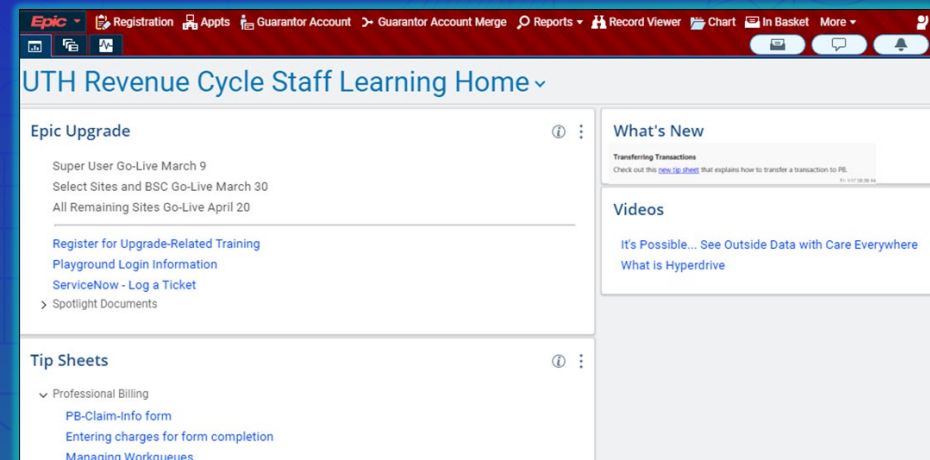

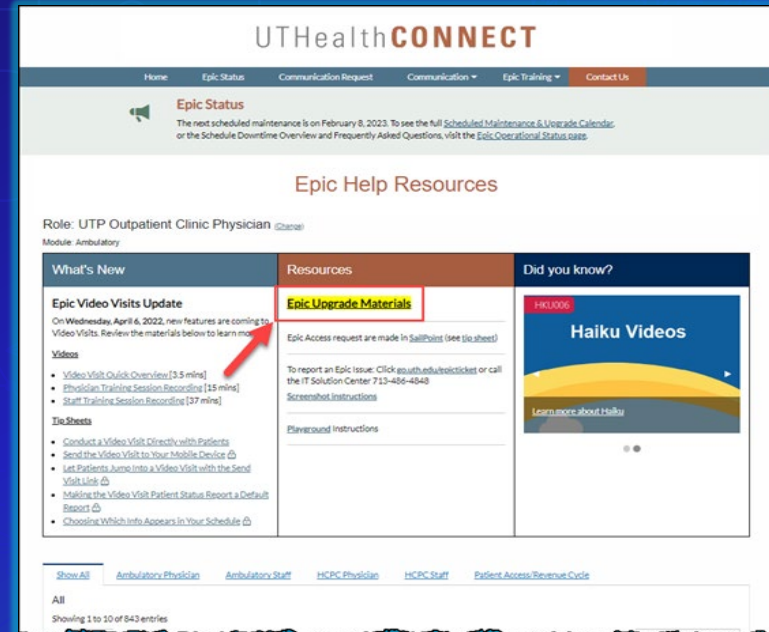

- ❖ All Thrive and Super User sessions are recorded for future reference

Learning Home Dashboards

- ❖ Over 800+ resources available including tip sheets, quick start guides and videos.
- ❖ Role Specific e-learnings available in one convenient place.

Lunch & Learns and Thrive Sessions

- ❖ Refresher trainings for end users to review workflow knowledge and updates.

How To's

Facilitator's Guide

Super User Guides are provided to all Super Users for support when ATE is not available.

Issues & Workarounds

If an End User wants to see any known issue and if there is a work-around for it, they can visit our UTHealthConnect page.

Newsletter & Updates

Newsletters are sent out weekly with updated information and Our End Users can also visit our UTHealthCONNECT dashboards to get additional Epic Help.

The screenshot shows the UTHealthCONNECT website interface. At the top, there is a navigation bar with links for Home, Epic Status, Communication Request, Communication, Epic Training, and Contact Us. The main heading is 'Upgrade Issues & Workarounds'. Below this, it specifies 'Epic Hyperdrive' and 'Known Issues & Workarounds'. The current upgrade is listed as 'Hyperdrive' with a 'Go Live Date' of April 20, 2023. A table lists four issues with their Sherlock numbers, descriptions, and links to workaround documents.

Sherlock#	Issue Description	Link to Workaround Document
7644793	Prepay information is not correctly saved to the estimate. As a result, the prepay amount is not editable. Additionally, clicking the "Payment Collection" button results in a Hyperspace crash.	Estimate Prepay Information is not Saved Correctly
7596966	In Hyperdrive if the first parameter is blank, but the second parameter is populated then the system will throw a web error when launched from Hyperdrive	Hyperspace Terminates When a Clinician Clicks a Certain Link to Create a Note
7585095	The right-click paste option is not available in Flosheet navigators in Hyperdrive when you attempt to paste text copied via Ctrl-C. If a user uses Ctrl-V to paste instead, it will work. However, there is a potential to accidentally paste in the wrong info if the intended data was only copied using right-click (Context menu) and not Ctrl-C.	In Hyperdrive, Text Copied Cannot Be Pasted in Flosheet Navigators Using Context Menu
7596182	In various circumstances in Hyperdrive, the "Workqueue" tab will not maintain its positioning after leaving the workspace or changing records within the workqueue. This results in the user's tab configuration preferences not being respected. Affected workqueue types include Account, HB Claim Edit, Credit Retro Review, Following, and Guarantor workqueue.	Workqueue Tab in Guarantor Account Maintenance and Hospital Account Maintenance Doesn't Stay in the Same Place

The screenshot shows the 'EPIC UPDATES' section of a newsletter. It features a header with the text 'EPIC UPDATES' and a sub-header 'A Weekly Publication by the EHR Governance Task Force'. Below this, there is a section titled 'Epic video visit appointment reminders' with a brief description of the reminders and a link to the full article. The text states that patients or their proxies will be sent automated reminders on upcoming appointments, with video visit reminders being sent 60 minutes and 15 minutes before an appointment is scheduled to start. It also notes that notifications are sent via email by default but can be sent via text message if the patient or proxy has opted in. For technical assistance, it provides a link to the Service Now ticket and the contact information for the IT Solutions Center at 713-486-4848.
